INTRA COMPETITION
WINNERS
11TH APRIL 2019

Dear Parents,

The need for awareness about nutritional food among young children is the need of the hour and to bring in such awareness San Academy Kamakoti nagar's "Health & Wellness Club" activity for the month of April was around the theme "Planet Nutrition."

Students were shown various videos to educate them regarding general and overall importance of healthy eating and how a healthy diet should be planned. To inculcate better understanding in the young learners, colouring sheets were provided, where they exquisitely coloured and learnt about the importance of fruits and vegetables. Students enjoyed the activities planned and took home a wealth of information on nutritional awareness required for them. San Academy always encourages students to have healthy competition, which passes on a healthy spirit within the students.

This academic year kicked off with an Intra Competition on "Health and Wellness – Planet Nutrition ". Our young primary children had "Show and Tell" competition on fruits and veggies and they amazed everyone present with their confident presentation. Other interesting activities included Pulses collage, Poster making (comprising of a catchy caption with the strong message – Say 'no' to junk food) and essay writing on balanced diet. Students got wonderful and unique ideas to portray their work. Their creativity was visible in both collage and poster making. The whole campus was bursting with energy due to the tremendous efforts put in by the students.
