THEME: IT'S STORY TIME

A story is a connected series of events told through words (written or spoken), imagery (still and moving), body language, performance, music, or any other form of communication. You can tell a story about anything, and the events described can be real or imaginary; covering both fiction and nonfiction; and leaving no topic, genre, or style untouched. There are stories about all things and all times. Stories are, have been, and always will be an absolutely essential part of human culture. Stories are how we learn about each other, our past, and our cultures. Whether they are created for entertainment or to recount a real-life event. New stories are literally being lived, told, and created every second of every day.

TERM 1 - FIELD TRIP

TOYS DAY OUT - 07.08.2023

Going on a field trip enhances their critical thinking skills and gives students a chance to think about a topic or theme from a different perspective. All the children went to Toys Day Out (Cheeky Monkey in Grand Mall) they played all types of games and played in the play zone area. Children experienced the typical field trip location with their peers. A school trip gives students the chance to experience the venue.

ORGANISED GAMES

JUMP OUT OF THE CIRCLE – 09.08.2023

This game helps the children to participate and to develop attention and focus while playing. All children enjoyed jumping in and out of the hula hoops. This improves their concentration and gross motor skills.

NO PLASTIC PROJECT - 18.08.23

Most household solid waste is removed from homes through community garbage collection and then taken to landfills. The garbage in landfills is buried, but it can still produce noxious odors. In addition, rainwater can seep through landfill sites and leach out pollutants from the landfills' trash. So, it's important to teach children at a young age the proper ways of disposing of household waste. Children were taught how poor disposal of waste can affect our environment and the importance of having two dustbins in a home to put dry and wet wastes separately and use wet wastes from the kitchen as compost for plants.

INDEPENDENCE DAY

INDEPENDENCE DAY CELEBRATION AT SAN ACADEMY KAMAKOTI NAGAR (15.08.23)

Every year the campus of San Academy Kamakoti Nagar brightens up with pride on Independence Day. This year was no different as the patriotic flavour could be seen all around in orange, green, white and blue. The theme being "Nation first. Always First" all the programmes were related to the same in one form or the other. The main celebration was done in their auditorium. The day marked a successful celebration of independence with a rainbow of cultural programs prepared under the able stewardship of the teachers for this auspicious occasion and due homage and honour expressed towards the people who played their part in the independence of the country. The hidden talent of our young citizens was on display with their wonderful insights and colourful thoughts.

The day began with the march past by the band, followed by cubs, bulbuls, scouts and guides. The students and the teachers were not far behind. The traditional auspicious Flag hoisting ceremony as a tribute to our Motherland was accompanied not only by the National Anthem but also the flag songs in Hindi and Tamil. Speeches in Tamil, Hindi and English enlightened the audience as to what independence actually was, explained the theme of the year and the need to appreciate the freedom we have. But that was not all. There was also a moving speech on 'The Unsung heroes of the Freedom Struggle'. These speeches illuminated the audience about India's phenomenal history, legends, culture and values and also why we are celebrating our Independence Day. Patriotic songs were sung with great feeling by the students in Hindi and Tamil.

This parody of songs awakened everyone's feelings towards our motherland, and kept the audience humming to songs like Vande Mataram and Semmozhiyam Tamil mozhiyam even after the programme ended. Well-known and little-known freedom fighters took to centre stage, in the form of a fashion show and role play, when students dressed up as the leaders and spoke about their contribution to the independence movement. On show were Bharathiyar, Pandit Nehru, Subhash Chandra Bose, Jhansi Ki Rani, Bhagat Singh, Velu Nachiar, Kittur Chennamma, Sarojini Naidu among others. The life of Thiruppur Kumaran was presented as a skit by the students of Senior KG children. These programmes were a reminder to everyone present, of the struggles our nation's founders went through to let us live such a free and independent life.

The mime presented by the students of class 7 was intense and mind blowing. The audience was a witness to the Champaran Satyagraha which was a peasant uprising, led by Mahatma Gandhi in the Champaran district of Bihar. The students could bring out the feelings that evoked in the farmers in the region who revolted against the British power against the imposed indigo cultivation between 1914 and 1916 instead of the food crops which were necessary for their survival. The protest was beautifully portrayed.

Keeping in mind the upcoming eighteenth meeting of Group of Twenty - The 2023 G20 New Delhi summit, the first ever G20 summit to be held in India as well as in South Asia, students from Classes 9 and 10 created a platform for G20 Panel discussion, sharing their opinions on various topics. While the forum had its own introduction, anchoring, conclusion and reading out the Minutes Of Meeting, the participants discussed about Women Empowerment, Environment and Climate change, Acceleration toward SDGs, Technologies, Advancement and Infrastructure, Accelerated Inclusive and Resilient Growth, Multilateral Institutions, among others. The panelists elucidated the important role in shaping and strengthening global architecture and provided a deep insight into their chosen topics.

The Principal Mrs. Ganga Natarajan, emphasised upon the fact that one should not understand oneself free of responsibilities towards India but we have to use it to shape our future. Our country is a nation that boasts of diverse cultures and traditions, people from different cultural backgrounds and ethnic milieus. So she asked one and all to be proud of our country and not bring it down in front of a foreigner.

This celebration of our sovereignty, the spirit of freedom and nationalism was well exhibited by the students from Kindergarten to Class XII. The cultural programme was a spectrum of patriotic songs, speeches, role play, skit, mime and dance even by the tiny tots and smaller children. Their agenda was mesmerizing, powerful, and scintillating,

A Truly Sensational Day

EVS CULMINATING ACTIVITY

EVS culminating activity at San Academy Kamakoti Nagar“Education is the kindling of a flame, not the filling of a vessel.”– SocratesWe at San Academy Kamakoti Nagar believe that sustainability activities for the classroom can be incorporated right into our educational activities to help students grow. To enhance the understanding of concepts of EVS, we include various fixtures like quiz, riddles, discussion, songs, role play, etc., into our culminating activity which help in the holistic development of the individual kids. We maintain that school is a place which provides quality education to the children and also furnish an opportunity to learn new things in many ways, which in turn helps them nurture their interests. We recognize that each student prefers different learning style, techniques and approaches. Some are visual learners, whereas some learn effectively through listening and following instructions, some through experiments, games and so on. Everyone has a mix of learning styles.We have not only adopted different ways of imparting knowledge but also provide the platform and opportunity to the children to synthesize the knowledge and strengthen experience gained throughout their learning process by displaying their understanding of the subject. 5 E’s Engage, Explore, Explain, Elaborate (Expand), and Evaluate were utilized in their presentation making the EVS culmination activity a very captivating one. The activity was held for classes 1 and 2 on August 21 and 22

. The students demonstrated their depth of knowledge accumulated across the first term. The little ones decided to create an impact on the audience by adhering to the practice of showing something and describing it to them. They brought real objects, models, plants, charts and soft toys and explained about topics like traffic lights and different parts of plants. Children dressed up as various characters and gave some interesting facts about themselves. Enterprising ventures kept following one after the other. A colourful dance was performed to explain about the rainbow; Saving our environment is a major concern these days and thus we had a mime show that propagated the theme of 'Saving Trees'; How are trees helpful to us? Well the young learners walked the ramp for the fashion walk based on tree products. Concepts taught with the help of story, songs, actions always leave a lasting impression on the innocent minds. So the concept of herbivores, carnivores and omnivores were explained in the form of musical skit. Riddles fascinate children and they like to show their upmanship with their knowledge on any topic. Thus some of the students imparted certain fundamental points in this creative manner. Not only this, the young students brought the classroom on to the stage for demonstrating an experiment which portrays that air is everywhere. They even displayed the primary colours and indicated how the secondary colours are formed using a simple experiment. Children are basically very inquisitive and ask a lot of questions. This help them to broaden their base in understanding various features. Using this trait students we asked to interview others putting forward some interesting questions based on food products. While some of the activities helped one to understand the proficiency with which the concepts were grasped others exemplified the ingenuity of the little ones to use music, dance and skit to enlighten their peer on their chosen topics. The two days were simply amazing.

Madras Day is a festival organised to commemorate the founding of the city of Madras in Tamil Nadu, India. It is celebrated on 22 August every year, 22 August 1639 being the widely agreed date for the purchase of the village of Madraspatnam or Chennapatnam by East India Company factors Andrew Cogan and Francis Day from Damarla Venkatadri Nayaka, the viceroy of the Vijayanagar Empire.

The idea of a Madras Day was first suggested by Chennai-based journalists Vincent D'Souza, editor, *Mylapore Times* (a local newspaper) and Sashi Nair, director and editor, Press Institute of India, to historian S. Muthiah during a conversation at Muthiah's home in 2004. Since then, Madras Day celebrations have been held every year without fail, its highlights being exhibitions, lectures, film screenings and quizzes. The Madras Day festival has registered a steady increase in popularity year after year. Between 2014 and 2019, the editions lasted through August and extended into September as well, with more than 120-odd programmes, prompting demands to rename Madras Day as Madras Week, or even Madras Month.^[1]

NATIONAL HANDLOOM DAY

In India, National Handloom Day is observed annually on August 7th to honour the handloom weavers and their significant role in the country's economy and culture. This occasion highlights the significance of the handloom industry in our past and provides more power to those who are employed in it.

Why National Handloom Day is celebrated?

The primary goal of celebrating Handloom Day is to promote the handloom and to recognise the efforts as well as skills of the community of weavers engaged in the sector. The community of workers, weavers and manufacturers in the handloom sector has been preserving the cultural and traditional heritage of the country

QUIT INDIA MOVEMENT DAY

The Quit India Movement, also known as the Bharat Chhodo Andolan, was a movement launched at the Bombay session of the [All India Congress Committee](#) by [Mahatma Gandhi](#) on 9 August 1942, during [World War II](#), demanding an end to [British rule in India](#).

After the British failed to secure Indian support for the British war effort with [Cripps Mission](#), Gandhi made a call to *Do or Die* in his [Quit India speech](#) delivered in Bombay on 9 August 1942 at the [Gowalia Tank Maidan](#). Viceroy [Linlithgow](#) remarked the movement to be "by far the most serious rebellion since 1857

WORLD YOUTH DAY

World Youth Day (WYD) is an event for young people organized by the [Catholic Church](#) that was initiated by [Pope John Paul II](#) in 1985. Its concept has been influenced by the [Light-Life](#) Movement that has existed in Poland since the 1960s, where during summer camps Catholic young adults over 13 days of camp celebrated a "day of community". For the first celebration of WYD in 1986, bishops were invited to schedule an annual youth event to be held every [Palm Sunday](#) in their dioceses. Nicknamed "The Catholic Woodstock", it is celebrated at the [diocesan](#) level annually—in most places on Palm Sunday from 1986 to 2020, and from 2021 on [Christ the King Sunday](#)—and at the international level every two to three years at different locations.

NATIONAL SPORTS DAY

The National Sports Day in India is celebrated on 29 August every year. It is celebrated to commemorate the birth anniversary of hockey legend Major Dhyan Chand Singh. The day also serves as a reminder for all of us to recall the contributions, determination and extraordinary achievements of the athletes and their influence in shaping societies. The first National Sports Day was celebrated on August 29, 2012 and hence this year marks the 12th anniversary of Rashtriya Khel Divas.
