MANAGING DIRECTOR,
SAN ACADEMY
GROUP OF SCHOOLS**

Warm greetings from all of us at San Academy Group of Schools.

As I pause to reflect on our journey, my heart is filled with deep gratitude. Thank you for trusting us with what matters most to you—your children. Your belief, partnership, and constant encouragement inspire us every single day. At San Academy, my vision has always been clear: education must go beyond textbooks and examinations. A child's schooling should nurture the mind, body, and heart. We believe in holistic development—where academic excellence walks hand in hand with creativity, confidence, empathy, and emotional well-being.

Our students are exposed to a wide range of clubs, sports, arts, and leadership opportunities that allow them to discover their strengths, explore their passions, and grow into balanced individuals. Equally important to us is fostering empathy, kindness, and mental health awareness. In a fast-changing world, emotional intelligence and compassion are not optional—they are essential life skills.

Looking ahead, I am incredibly excited about the future we are building together. We are stepping confidently into the next era of learning by integrating Artificial Intelligence in education, not as a replacement for teachers, but as a powerful tool to enhance understanding, personalization, and curiosity. Alongside this, we are introducing:

- AI learning modules to prepare students for future careers*
- A structured Financial Literacy Programme to build real-world awareness and independence*
- Dedicated English Language Labs to strengthen communication, confidence, and global readiness*

These initiatives are designed to equip our children with skills that will serve them not just in school, but in life. At San Academy, we are not merely preparing students for exams—we are preparing them for the world. And we know this journey is most meaningful when parents and educators walk together as partners.

Thank you once again for being an integral part of the San Academy family. The best is yet to come, and I am excited for all that we will achieve together.

With gratitude and warmth,

Archana

Founder & Director

San Academy Group of Schools

PRINCIPAL'S PERSPECTIVE

**MS. APARNA
ARULANANDAN
PRINCIPAL,
SAN ACADEMY
SCHOOL, TAMBARAM**

Education is the most powerful weapon which you can use to change the world." – Nelson Mandela

A school is much more than a place where education is received. It is an institution where students learn how to think, how to feel and how to grow. Each child who comes through our doors brings with him unique gifts and unexpressed dreams. It is up to us to spot these jewels and ensure that they shine with pride and purpose.

Education must be meaningful and relevant in preparing children for more than just examinations. It must prepare them for a challenging and constantly changing world. They will need more than just knowledge to survive in the world out there. The world needs values and character. We strive, therefore, to develop thinking, respectful individuals who will take sound decisions.

Learning experiences are wholesome and well balanced. Academics matter, as do creativity, fitness, teamwork and emotional intelligence. Through sports, arts, cultural initiatives, environmental projects and leadership tasks, students explore their passions and their strengths. Life lessons are gained along the way. We provide an enriching learning experience with modern infrastructure and conscientious teaching strategies. Students are exposed to a world of possibilities and opportunities while remaining grounded with values and traditions. We want them to be cosmopolitan yet deeply humane.

Parents play a crucial role in the education process. A child learns better when school and family instil trust and common objectives in the child. Together we can nurture our children tenderly but firmly, so they become responsible citizens.

As Principal, I have the pleasure of welcoming every family into the fold of SAN ACADEMY. We value every child's journey through our institution. We will walk alongside them, celebrate their accomplishments, and be there for them in trying times.

Education opens up a world of possibilities. Each day at school brings new ideas, new friends and new horizons. Let us step into an exciting future together, strengthening a generation of children whose minds are wise, and whose hearts are generous.

The learning journey begins now; its outcomes last a lifetime!

PURPOSE IN PRACTICE

INSPIRING LEARNERS BEYOND THE CLASSROOM!!

CAREER GUIDANCE PROGRAM – 08.11.2025

A CAREER GUIDANCE PROGRAM FOR CLASSES IX AND XI WAS CONDUCTED ON 8TH NOVEMBER 2025 TO HELP STUDENTS EXPLORE ACADEMIC AND CAREER PATHWAYS. THE SESSION OFFERED VALUABLE INSIGHTS INTO VARIOUS STREAMS, EMERGING FIELDS, AND INFORMED DECISION-MAKING, ENABLING STUDENTS TO PLAN THEIR FUTURE WITH CLARITY AND CONFIDENCE.

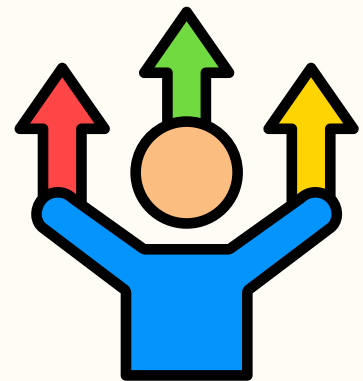

POCSO AWARENESS SESSION – 12.12.2025

A POC SO AWARENESS SESSION FOR GRADES VI–VIII HIGHLIGHTED THE IMPORTANCE OF RESPECTFUL BEHAVIOUR, PERSONAL BOUNDARIES, AND RESPONSIBLE CONDUCT. THE SESSION ENCOURAGED STUDENTS TO UPHOLD GOOD MANNERS AND CONTRIBUTE TO A SAFE AND RESPECTFUL ENVIRONMENT.

TURNING POTENTIAL INTO PERFORMANCE

PLANET NUTRITION SESSION BY MS. KRITIKA - DECEMBER 24, 2025

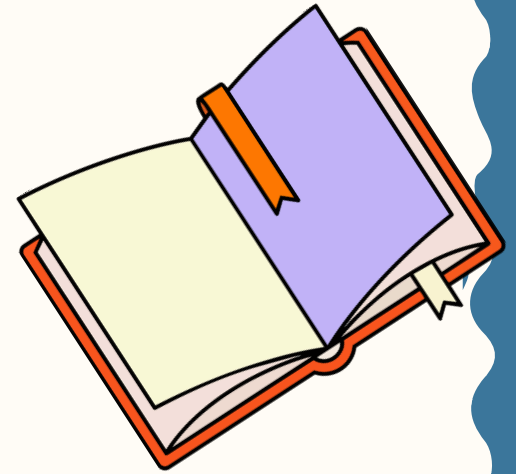

A PLANET NUTRITION SESSION WAS CONDUCTED ON 24.12.2025 BY MS. KRITIKA, FOR CLASS IX, CREATING AWARENESS AMONG STUDENTS ABOUT HEALTHY EATING HABITS, BALANCED NUTRITION, AND THE IMPORTANCE OF MAKING MINDFUL FOOD CHOICES.

ENRICHMENT WORKSHOPS

TO ENHANCE CLASSROOM LEARNING, THE SCHOOL ORGANISED A SERIES OF WORKSHOPS FOR MIDDLE SCHOOL STUDENTS. GRADE VI ATTENDED AN ART WORKSHOP, "STROKES AND STYLES," CONDUCTED BY CAMLIN RESOURCE PERSON MR. IRFAN, WHERE STUDENTS EXPLORED SHADING, BLENDING, AND BRUSHWORK TECHNIQUES. GRADE VII PARTICIPATED IN "SMART STUDY SKILLS FOR SUPER STUDENTS," LED BY MS. PRIYADHILIP, FOCUSING ON EFFECTIVE STUDY HABITS AND TIME MANAGEMENT. GRADE VIII ATTENDED A MOTIVATIONAL SESSION, "DISCIPLINE – A KEY TO THRIVE IN THE RIGHT DIRECTION," CONDUCTED BY SENIOR PRINCIPAL MS. SUJATHA AND ACADEMIC MENTOR MS. AARTHI SIWARI, HIGHLIGHTING THE IMPORTANCE OF DISCIPLINE IN ACHIEVING SUCCESS.

THE WORKSHOPS WERE INTERACTIVE AND INSPIRED STUDENTS TO APPLY THESE VALUABLE LESSONS IN THEIR DAILY LIVES.

PERSONALITY DEVELOPMENT WORKSHOPS

SPECIAL WORKSHOPS WERE CONDUCTED ON 26TH AND 28TH AUGUST 2025 TO ENHANCE STUDENTS' SELF-CONFIDENCE AND SOCIAL SKILLS. GRADE VI ATTENDED THE SESSION ON 26TH AUGUST, WHILE GRADES VII AND VIII PARTICIPATED ON 28TH AUGUST. RESOURCE PERSON MS. MARIYA KAUSER ENGAGED STUDENTS THROUGH INTERACTIVE ACTIVITIES, ROLE PLAYS, AND GROUP DISCUSSIONS FOCUSING ON COMMUNICATION, LEADERSHIP, TEAMWORK, AND A GROWTH MINDSET. THE SESSIONS MOTIVATED STUDENTS TO FACE CHALLENGES WITH CONFIDENCE AND RESPECT FOR OTHERS.

ENGLISH EVERYWHERE WORKSHOP – 12.08.25 & 14.08.25

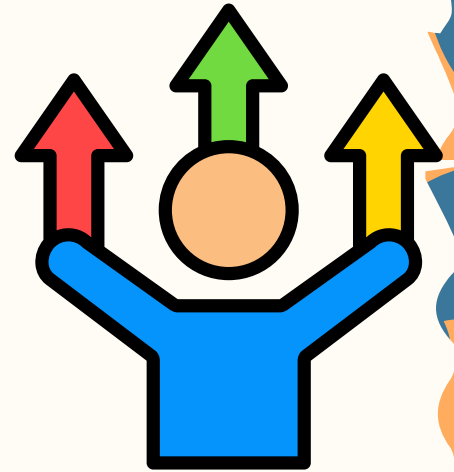

AN ENGLISH ENRICHMENT WORKSHOP FOR GRADES IV AND V, LED BY MS. JOSELY SHARON, ENHANCED STUDENTS' SPOKEN ENGLISH, VOCABULARY, AND COMMUNICATION SKILLS THROUGH ENGAGING AND INTERACTIVE ACTIVITIES. THE SESSIONS FOSTERED CONFIDENCE AND STRENGTHENED STUDENTS' LINGUISTIC PROFICIENCY.

**BE CONFIDENT.
BE KIND.

COMMUNITY OUTREACH

Unified Sports Event – 22.11.2025

On 22nd November 2025, Class XI B Humanities students participated in the Unified Sports Event for special children at Montfort School, St. Thomas Mount. The event fostered inclusion, teamwork, and empathy, creating a meaningful experience that celebrated unity and diverse abilities.

Empowering Lives Through Service.

--Care, Share, Serve

EDUCATOR'S ECHO

DISCIPLINE IS THE COMPASS THAT GUIDES YOU TO YOUR GOALS.

- JOHN C. MAXWELL

MS. VIJAYALAKSHMI V

In today's world, how much you know does not matter, but being disciplined is more important. Discipline is not controlling, it is the sense of adhering to the ground rules that helps in character building. It is the mind-set that brings transformation in life. Today's Gen- Z and Gen-Alpha children are very clear with what they want, but are engaged with routine less activities expecting instant results or instant success without leaving their comfort zone. In true sense, there is nothing called instant results or instant success, instead it's a myth.

Success comes only to the people with disciplined mind-set. Here I would like to quote an example from our epic- Ramayana, Lakshmana was a successful person not because he was a prince, not because he was strong, not because he was brother of Rama, he was successful only because he was an ocean of discipline guarding Lord Ram and Sita day and night for 14 years of exile without any laziness, without any complaints and even without any excuses and following only one routine of discipline i.e. Serving Lord Ram & Sita. This disciplined routine made Lakshmana win himself.

A person who wins himself with self- discipline will also win the world and definitely becomes successful in the life. So, we as parents, teachers and friends must help and guide our Gen- Z and Gen-Alpha children to build a disciplined mind with daily routines that align with real values. Discipline in small actions leads to greater achievements with true freedom and happiness.

A disciplined mind with patience and consistency is the path to achieve greatness in life.

Small Steps, Big Success

Success is not achieved in a single day; it is built through small, consistent efforts. Every time we choose to learn something new, help a friend, or correct a mistake, we move one step closer to our goals. School life is not just about marks—it is about shaping character, discipline, and confidence.

Failures are not the end; they are lessons that teach us how to improve. A student who believes in hard work and positive thinking can overcome any challenge. When we manage our time well, stay healthy, and remain hopeful, success naturally follows.

Remember, today's efforts decide tomorrow's achievements. So dream big, work sincerely, and never stop believing in yourself.

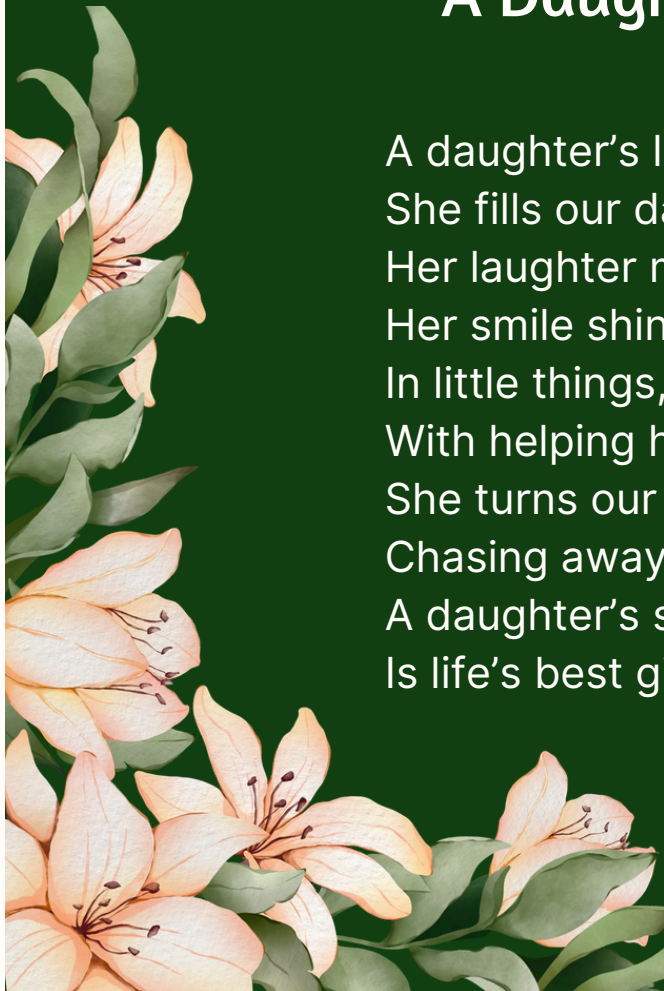

**MS. PARVIN
SHAJAHAN**

A Daughter's Smile

MS. ANITHA M

A daughter's love is soft and bright,
She fills our days with pure delight.
Her laughter makes the heart feel light,
Her smile shines warm from morning to night.
In little things, she shows her care,
With helping hands and love to share.
She turns our tears to hope and cheer,
Chasing away each doubt and fear.
A daughter's smile, so sweet and true,
Is life's best gift, forever new.

DREAMS

Every night, magic waits for you.

You close your eyes and the world quietly slips away.
Walls vanish. Gravity forgets its job.

You fly, you float, you do things you never questioned.
Dreams are your secret playground,
a midnight world where impossible is not invited.

They are sweet, sometimes strange, always unlimited.
Here, you are both the storyteller and the hero,
walking through castles made of clouds and roads
paved with hope.

When life feels loud, dreams feel kind.

They become your happy place, your pause button,
your gentle reminder that hope still exists.
Dreams reflect who you are and who you might become.
They turn "What if?" into "Why not?"

They whisper new beginnings when mornings feel unsure.
So tonight, don't just sleep, wander.

Chase stars. Talk to the moon.
Run where fear can't follow.

Because dreams are not just night-time wonders,
they are quiet promises,
waiting for you to believe in them.

KAVITHA

Dear Students,

MS. JOSEPHINE

Life may be busy, but remember one important truth –

YOU MATTER.

EACH OF YOU IS UNIQUE, WITH TALENTS AND DREAMS WAITING TO SHINE. SCHOOL IS NOT JUST ABOUT EXAMS; IT IS A PLACE TO FEEL SAFE, VALUED, AND SUPPORTED.

YOU ARE MORE THAN YOUR MARKS. YOUR EFFORTS, CHARACTER, AND GROWTH DEFINE YOU. BE CURIOUS, ASK QUESTIONS, AND TAKE PRIDE IN YOUR PROGRESS. LEARNING SHOULD FEEL LIKE A JOURNEY OF DISCOVERY, NOT PRESSURE.

WE ARE HERE TO GUIDE AND ENCOURAGE YOU EVERY STEP OF THE WAY. KEEP LEARNING, DREAMING, AND BELIEVING IN YOURSELF – BECAUSE YOU DESERVE JOY, SUCCESS, AND ENDLESS POSSIBILITIES.

WITH PRIDE AND BELIEF IN YOU

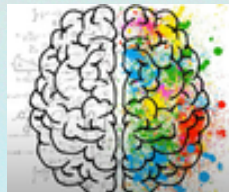

Art Integrated Learning: Making Education Creative and Meaningful

MS. ANUPRIYA KUMARI

Art Integrated Learning (AIL) is an innovative, learner-centred approach that uses art as a medium to understand academic concepts. It promotes learning through and with the arts, making education joyful, experiential, and inclusive. AIL is not a replacement for art education; rather, it is a cross-curricular pedagogy that integrates subjects like Mathematics, Science, Social Science, and Languages with various art forms.

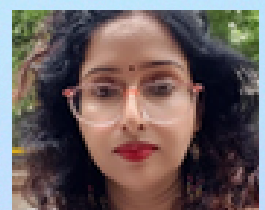

Art is a powerful form of expression—visual, verbal, written, or enacted. When integrated into teaching, it helps students visualize abstract ideas, build mental imagery, and gain deeper conceptual understanding. AIL uses music, dance, drama, storytelling, visual arts, crafts, and design to enhance creativity and critical thinking.

In Mathematics, concepts such as geometry can be taught through origami, rangoli patterns, and Warli art, while fractions and symmetry can be explored through paper folding and designs. In Science, processes like the life cycle of plants, human organs, or the solar system can be explained through clay modelling, drawings, role play, and songs. In Social Science, historical events can be taught through skits and storytelling, maps through collage work, and cultural diversity through folk dances and traditional art forms.

Research shows that AIL enhances cognitive, socio-emotional, and psychomotor development, improving attention, memory, and retention. Overall, AIL transforms classrooms into creative spaces, helping students connect learning with life, culture, and holistic development.

FORMULA FOR SUCCESS

MR. D. KAMESH

Dear all in our life everyone wants to be successful. We have different professions. But the ultimate aim is to be successful in our career. Is there any easy way to be successful?

The answer is No.

Then how to be successful in our life.

Let's apply this formula for being successful. That is, $S = 3C - 2D$

The first C stands for Clarity

whatever the work you are going to do you should have the clarity about it.

Second C stands for Commitment.

Commitment is very important for any kind of work.

Third C is playing important role here that is Consistency

For example.

We know about Mr. Barack Obama, and Mr. Joe Biden. Both of them are former US presidents.

Let us compare them, Obama became president of US at the age of 47 but Biden became president of US at the age of 78. One more fact is more surprise for you, that is Biden became youngest senate member at the age of 29 but Obama was at the age of 43.

So here we observe the consistency between them. There are 2 D, we need to be subtracted to meet the Success.

First D is deviation. We Should not deviate from our goals.

Second D is depression, if something went wrong in our process, never get depressed.

So, the formula for success is $S = 3C - 2D$.

Apply the formula and be successful,

ALL THE BEST!!!

TEACHING ENGLISH, LEARNING LIFE

MS. SANTHOSHI .T

Each dawn, the children cross my classroom gate,
With borrowed courage, shy or great.
Books clasped close like fragile light,
As words might flee at fear's first sight.
The children test their voices, pause midway,
Their eyes ask more than words can say:
"Is it safe to sound my name?"
I gift them time, not praise or blame.
At San Academy, I shape their speech,
Where syllables learn how far they reach.
Yet while I teach the craft of tongue,
The children school my heart—old, wise, and young.
Dear children, speak though silence clings,
Let fragile voices grow their wings.
For every error lights the way,
And shapes the strength you find each day.
In tender hands, sincere and true,
The future waits—to speak through you.

मेरे प्यारे विद्यार्थियों,

-एम. प्रिया दिलिप

आप सभी मेरी प्रेरणा और गर्व हैं। हर दिन आपकी जिज्ञासा, मुस्कान और सीखने की इच्छा मुझे बेहतर शिक्षक बनने की प्रेरणा देती है। याद रखिए, सीखना केवल किताबों तक सीमित नहीं होता — यह आपके विचारों, व्यवहार और कार्यों में भी दिखाई देता है।

ईमानदारी, मेहनत, अनुशासन और दयालुता जैसे गुण आपको न केवल अच्छे विद्यार्थी, बल्कि अच्छे इंसान भी बनाएँगे। गलतियाँ करना सीखने का हिस्सा है, इसलिए उनसे डरिए मत — उनसे सीखिए।

अपने सपनों पर विश्वास रखिए, प्रश्न पूछते रहिए और हर दिन कुछ नया सीखने का प्रयास कीजिए। मुझे पूरा भरोसा है कि आप सभी अपने प्रयासों से न केवल अपना भविष्य उज्ज्वल बनाएँगे, बल्कि समाज और देश को भी गौरवान्वित करेंगे।

आप सभी को मेरी ढेर सारी शुभकामनाएँ।

பெண்ணின் கல்வி

திருமதி. ச. தேவிகாராணி

பெண்ணின் கல்வி
பெண்ணுக்கு கல்வி -
வாழ்வுக்கு ஒளி,
தேசத்திற்கு வலிமை,
நாளைக்கு நம்பிக்கை!

புத்தகம் கையில்
புதிய உலகம்,
கனவு கண்களில்
பொற்காலம்!

பெண் உயர்ந்தால்
நாடு உயரும்,
கல்வி தந்தால்
எதிர்காலம் மலரும்!

அச்சம் விலகும்,
அறிவு மலரும்,
அடிமைச் சங்கிலி
அறுந்து விழும்!

சிறகுகள் முளைக்கும்
சிந்தனைகளுக்கு,
சிகரங்கள் கூட
சிறிதாகத் தோன்றும்!

ஆகையால்,
பெண் கல்வி ஒரு தேர்வு அல்ல - தேவை,
ஒரு உரிமை மட்டும் அல்ல - பொறுப்பு.

ஒவ்வொரு பெண் குழந்தையின் கையிலும்
புத்தகம் கிடைக்கும் நாளே,
இந்த உலகம் உண்மையில்
ஒளிர்ந்த தொடங்கும் நாளாகும்!

YOUNG EXPRESSIONS

RIDDLES

1. I am round and bright.
I give light in the sky.
Who am I?
- Sun

2. I have two hands,
But no legs.
I show the time.
Who am I?
- Clock

3. I have a tail,
I run very fast.
I say "bow-wow".
Who am I?
- Dog

4. I am white and cold.
I fall from the sky.
Who am I?
- Rain

5. I have many pages,
I help you read.
Who am I?
- Book

II-A

6. I have keys but no lock.
I can open your mind.
Who am I?
- Piano

7. I am green.
I give fruits and shade.
Who am I?
- Tree

8. I have a face and two hands,
But no mouth.
Who am I?
- Clock

SPACE RIDDLES

AVYUKTH SAI

II-D

- 1) "I shine at night but I'm not a star, astronauts visit me, what am I?" (Answer: Moon)
- 2) "I'm the biggest planet, full of gas, who am I?" (Answer: Jupiter)
- 3) "I'm red and dusty, people dream to live on me, who am I?" (Answer: Mars)

TEN FACTS ABOUT SPACE

AVYUKTH SAI

II-D

- 1) A Day on Venus is longer than a Year on Venus, one day takes more time than one year! Isn't that strange?
- 2) The Moon Has No Air That's why astronauts wear special suits to breathe!
- 3) There Are Moons Everywhere Jupiter has 95 moons, and Saturn has 146 moons!
- 4) Pluto Is a Dwarf Planet It used to be called the ninth planet, but now it's a dwarf planet.
- 5) A Year on Neptune Is Very Long One year on Neptune equals 165 Earth years!
- 6) Space Is Completely Silent Sound cannot travel in space because there is no air.
- 7) Saturn Has Beautiful Rings Saturn's rings are made of ice and rocks. They look like a shiny hula hoop!
- 8) The Sun is HUGE! The Sun is so big that more than one million Earths could fit inside it!
- 9) Jupiter Has a Giant Storm Jupiter has a storm called the Great Red Spot, and it's bigger than Earth!
- 10) Neptune Is Very Windy Winds on Neptune can blow faster than a jet plane

Crossword Puzzle: Space Fun

AVYUKTH SAI
II-D

Across

- 2 The planet we live on
- 4 The biggest planet
- 5 The star at the center of our solar system

Down

- 1 The planet with rings
- 3 The red planet

Answers

- 1. Saturn
- 2. Earth
- 3. Mars
- 4. Jupiter
- 5. Sun

Grateful to Teachers.....

"A teacher plants the seeds of knowledge, sprinkles them with love, and patiently nurtures their growth"

Teachers hold a special and respected place in our lives. They are the true architects of our future who guide us from darkness to light with knowledge, wisdom and values. Teachers instill discipline, honesty, patience and respect. As Dr. A. P. J. Abdul Kalam beautifully said - "Teachers are the backbone of any country, the pillar upon which all aspirations are converted into realities".

Being grateful to teachers is not limited to Celebrate Teacher's day. It should be shown through our respect, obedience, hard work and good behavior. Teacher's contribution to our lives are priceless and unforgettable. We owe our knowledge, values and achievements to their guidance and dedication.

"The influence of a good teacher can never be erased"

"I love all my teachers."

THE ABANDONED WORLD

Characters:

Joseph: The Main character
Dan: Joseph's Partner
Daniel, John, Samuel and Jake: The Rocket Controllers
Jack: The Astronomer

-POORVITH
IV-A

Story:

Chapter 1: The Aftermath

Dave was released from jail after 10 years. "I'm free!" he said, running out of jail. The cops told him to not try to get the natural artifacts or else he'd serve a life sentence and he wondered "What are natural artifacts?" so, after reaching home, he opened up his laptop and searched 'what are natural artifacts' and it said "natural artifacts were made by god and they represented something for example: the diamond triangle represents sand and the emerald hexagon represents water."

So, then he searched up 'where are all the natural artifacts?'

Chapter 2: The Discovery

Google gave a long list and one said "The earthly diamond can be found on planet 9 and it represented the earth." And Dave had thought it wasn't true as he didn't believe in planet 9. The next day, Jack was looking through his telescope and saw "PLANET 9!!!!!!". The next day, Dave saw the news and the buzz about Jack discovering planet 9, when Dave saw it, he was like WHAT! And he called Joseph at the museum and said "I need you to get this guy on planet 9. It's called the earthly diamond." "Another one? Does he want me dead?" he said to himself "also don't forget the map." Said Dave. Then he asked Dan to come and Dan said "what is it this time?" "It's the earthly diamond this time all the way on planet 9." Said Joseph "ON PLANET 9!?" Dan said "yeah, boss said that." Said Joseph. "No matter what it is I will still come." Said Dan "then let's go." Said Joseph and they went to the rocket.

Chapter 3: The Trip To Planet 9

They went on a 3-hour trip to the rocket pad and it was BIG. They first trained (and they already went to college) and they were ready to go. They first got into the rocket and they got into their seats. "10,9,8,7,6,5,4,3,2,1,0 launch!" said Jake and the rocket launched. They were going at 40,270 km/h to planet 9. They first crossed Mars said Joseph and Dan, looking at Mars. Next, they came across Jupiter and they nearly escaped Jupiter's gravity "phew that was close," said Joseph. Then came Saturn and Joseph nearly fainted. Then came Uranus "more guys mostly joked about" said Dan. Then came Neptune "the windiest planet that is" said Dan. "Ok be quiet," said Joseph. "Here we come," said Joseph.

Chapter 4: In Planet 9

They put on their space suits and got out of the spaceship. "This is cool." Said Joseph. In deed it was cool and they got out and started searching for the earthly diamond. They were searching and searching until Joseph saw something sparkle and it was the earthly diamond. "I'VE FOUND IT!" shouted Joseph and they took it and went to the rocket and kept it inside the chest given by the rocket controllers.

Chapter 5: The Journey Back

They told the team to start the rocket and earth. They came back to earth and gave it to Dave and the cops found out and came to Dave's house and arrested him on the spot and the police. They also arrested Dan and Joseph "WHY US!?" They both said but, Joseph and Dan only served 7-month sentences

The end

SHORT STORY

A TRIP TO THE CARNIVAL

HAASINI. R
V- C

Pinky woke up with a smile. She was very excited because her class was going on a field trip to the carnival. She brushed her teeth, took a bath, had eggs for breakfast, and rushed to school in her brand new bicycle. Once all the students had arrived, their class teacher took them to the school bus. On the way to the carnival, the children sang songs, danced, played games, and had lots of fun. Soon, they reached the carnival. Once their entry bands were wrapped onto their wrists, they all entered the carnival with lots of excitement. They screamed on the roller coaster, saw the city view from the Ferris Wheel, and took a cheerful spin on the carousel. They watched the jugglers juggling balls in the circus and played a balloon popping game. Pinky won a teddy bear for popping the maximum balloons. Then they had lunch under a tree and headed back to school in the school bus. Pinky went home in her bicycle, finished her homework, had dinner, and went to bed, looking at the moon and the stars out of her window. She was exhausted, but happy.

HOW A TEACHER'S WORDS SHAPE A STUDENT'S MIND

DHARSHANA. S. G.

VIII A

Classrooms are full of lessons—but not all of them come from textbooks. Often, the words a teacher explains feel a deeper impact than we realise. One simple “Well done” can make a student feel like they have just won the academic lottery, while a careful “Try to focus” can quietly nudge us to pay attention.

I personally owe much of my inspiration to my secondary school teachers. My Math mam guides me through tricky problems, and with her dearest words, she has inspired me to live across and with fulfilment. My Science sis explains concepts with humour and clarity, turning the most challenging concepts into ones we can understand clearly. My SST mam takes us through the steps of history and geography with care. My Tamil mam cheers me and encourages me with laughter. My English mam is often so witty, intriguing, and enriching—turning grammar into laughter and lessons into true adventures. Their guidance, along with our Life Skill mam, has made our entry into life interesting and clear.

Art mam flows creativity and spreads positivity to our hearts. My CS mam codes our brains with knowledge. Their guidance, patience, and occasional tough love have not only made learning meaningful but also taught me that mistakes are stepping stones, not failures.

Of course, teachers face their own challenges—managing noisy classrooms and keeping up with schedules. Yet somehow, they still manage to say the right words at the right time—words that inspire, correct, and guide.

In conclusion, education is a shared experience. Students listen, teachers lead, and together we grow. Lessons may end and exams may pass, but the right words—spoken at the right moment—often stick around longer than any homework ever will.

THE END

YOUNG MINDS, BIG DREAMS

SHRINIDHIN. JV

VIII A

Young minds are never afraid to dream big. Every student carries a world of dreams inside a young mind. It's overflowing with thoughts, questions, and inquisitiveness. Though they are small in age, their dreams are boundless and have deep significance. These dreams have their own meanings, uniqueness and power.

Young minds are very curious and eager to learn. They dream of becoming doctors who save lives, become a soldier and serve the country, teachers who teach us and leaders who bring a transformation to society. Some dream of helping the poor, preserving the environment and making the world a better place to live.

But dreams will never come true by wishing alone. They need hard work, dedication, patience and self-belief. Every mistake will bring you one step closer to success.

Failures may slow down this path to success, but they will never stop. If we fail, we should always remember failure brings us one step closer to success.

Young minds are not just dreamers; they are the architects of tomorrow. Their dreams become ideas, become inventions and they shape the world. The future only belongs to those who believe in their dreams and work tirelessly to achieve them. Believe in yourself even if the road is difficult!

DARE TO DREAM, TO REACH THE SKIES

A.P.J. ABDUL KALAM

“Are Social Media Influencers Responsible for Fuelling Unrealistic Expectations in Society?”

TARASSWIN

VIII - B

The rapid growth of social media has given rise to influencers who hold significant power over public perception, particularly among young audiences. Many influencers create dopamine-inducing content to gain attention, fame, and financial success. On platforms such as Instagram, they often present carefully curated, aesthetic versions of their lives, promoting a picture-perfect lifestyle that rarely reflects reality.

This constant portrayal encourages unhealthy comparisons. Some influencers label themselves as “relatable,” appearing empathetic to their followers while subtly exploiting emotional vulnerability for engagement and profit. This false sense of authenticity blurs the line between genuine connection and manipulation.

As content creation becomes increasingly competitive, earning a sustainable income has become more difficult. Combined with the rising cost of living, this pressure has led some influencers to adopt unethical practices simply to remain relevant. Oversharing personal experiences and offering unsolicited advice often take precedence over responsibility. Consequently, many teenagers and young adults internalise distorted standards of success, beauty, relationships, and happiness.

These unrealistic expectations frequently result in dissatisfaction, poor self-esteem, and strained relationships. While social media itself is not inherently harmful, the influence of those who dominate it cannot be ignored. Ultimately, influencers represent a double-edged sword, and their impact depends on both responsible content creation and critical media consumption.

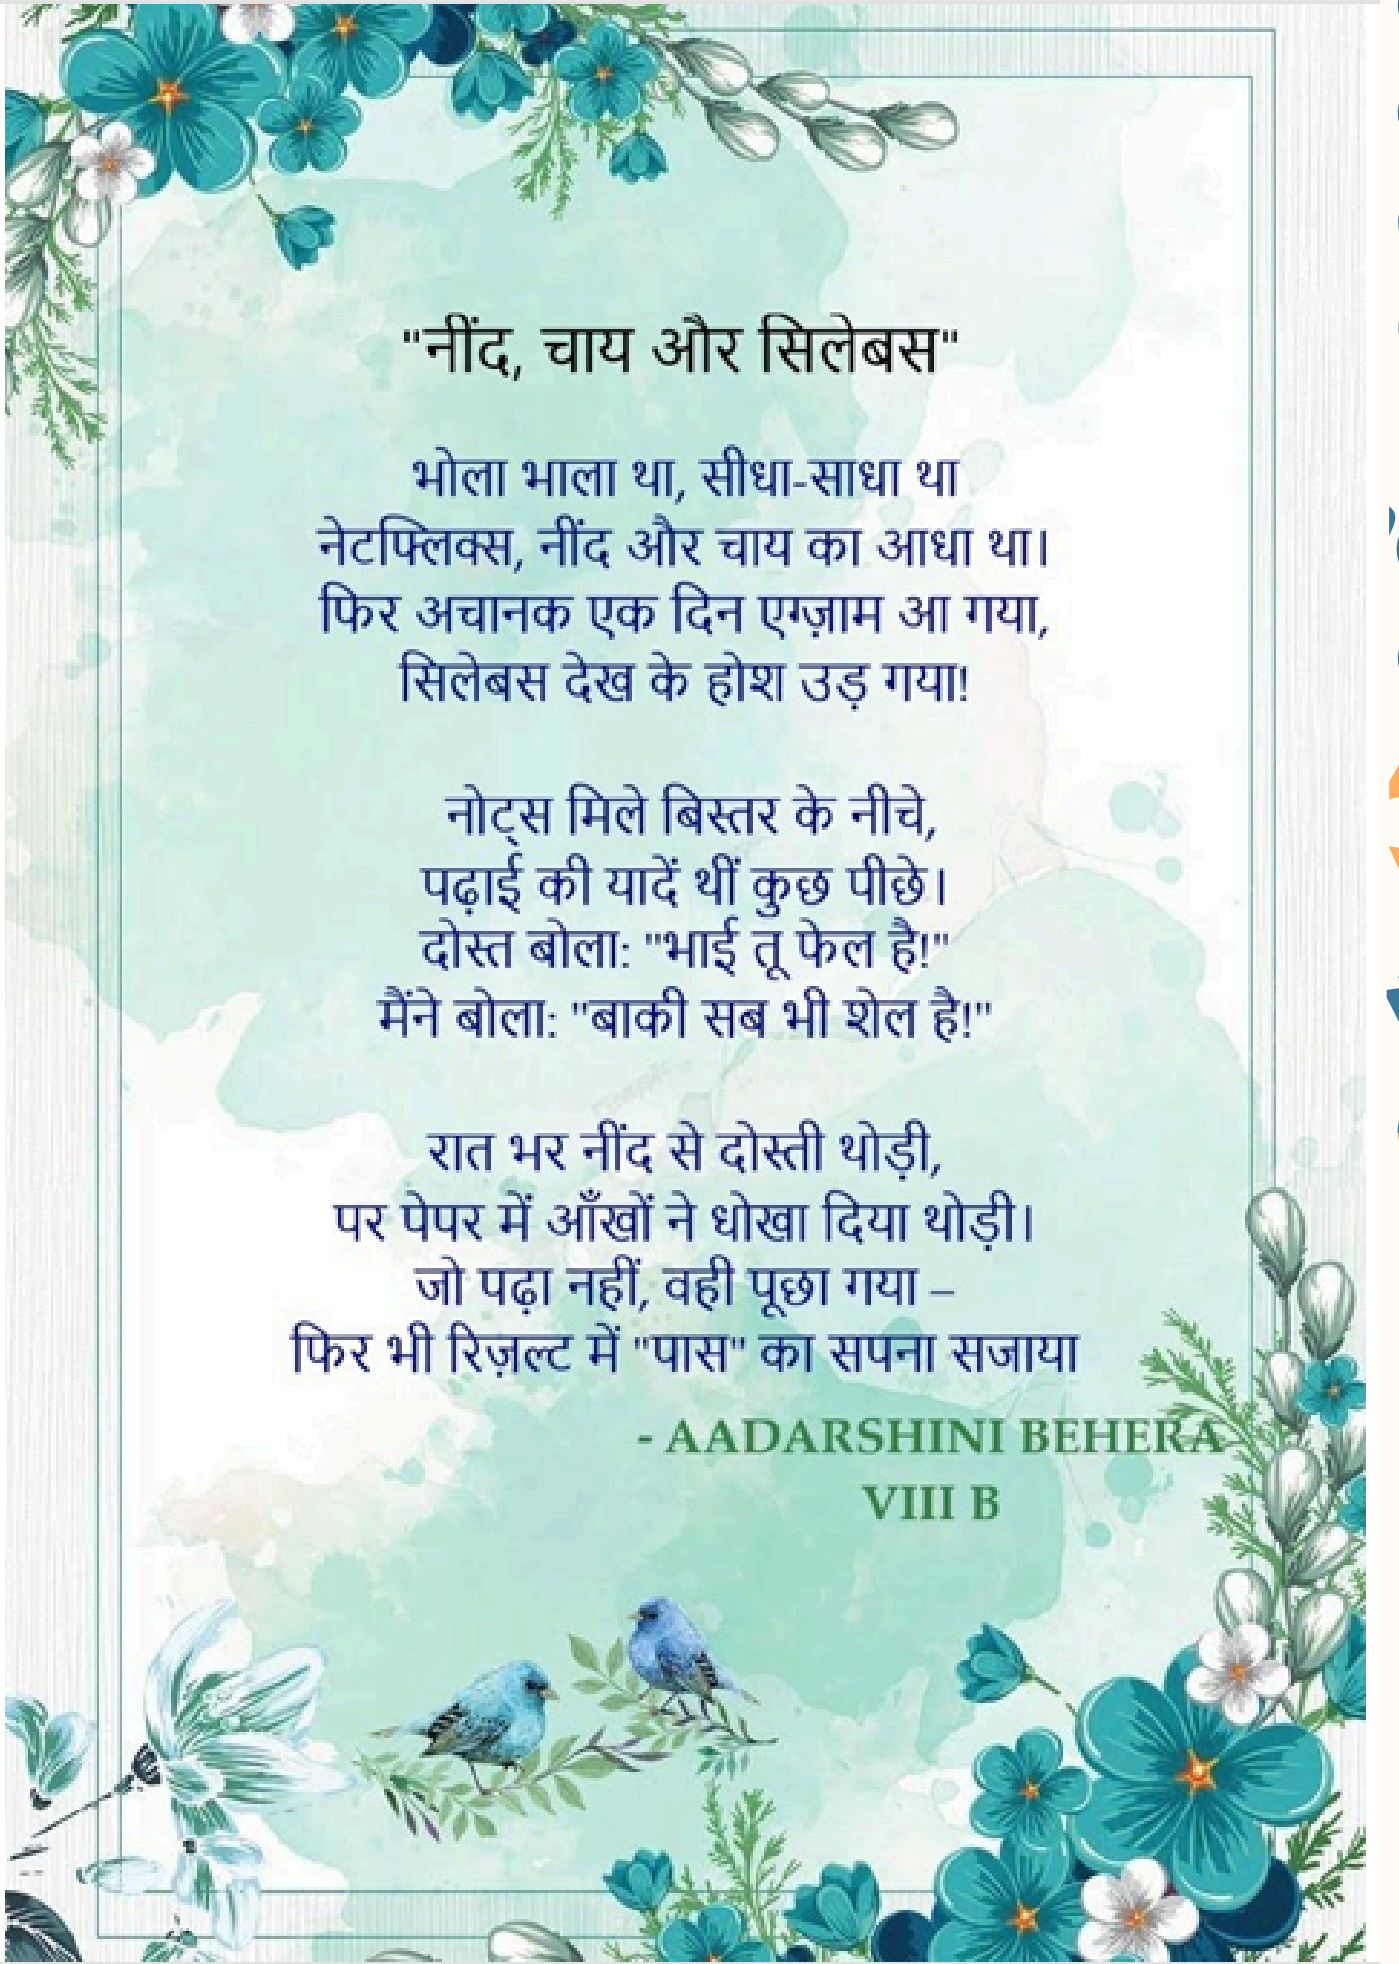

"नींद, चाय और सिलेबस"

भोला भाला था, सीधा-साधा था
नेटफ्लिक्स, नींद और चाय का आधा था।
फिर अचानक एक दिन एग्जाम आ गया,
सिलेबस देख के होश उड़ गया!

नोट्स मिले बिस्तर के नीचे,
पढ़ाई की यादें थीं कुछ पीछे।
दोस्त बोला: "भाई तू फेल है!"
मैंने बोला: "बाकी सब भी शेल है!"

रात भर नींद से दोस्ती थोड़ी,
पर पेपर में आँखों ने धोखा दिया थोड़ी।
जो पढ़ा नहीं, वही पूछा गया –
फिर भी रिज़ल्ट में "पास" का सपना सजाया

SAN BULLETIN

San Academy TAMBARAM

The investiture ceremony for the newly elected student council was conducted with great pride and enthusiasm at San Academy Tambaram on June 27, 2025. The elected student leaders solemnly took their oath of office, pledging to uphold the values and responsibilities entrusted to them. They were honoured to receive their badges from chief guest Balakumara Manikandan, principal Aparna Arulanandan, and vice-principal RamPriya. This symbolic gesture marked the beginning of their leadership journey. The ceremony was attended by proud parents and fellow students, who witnessed this significant moment of commitment and accountability. Such opportunities help students develop leadership qualities, a sense of responsibility, and dedication towards their school community. The school believes that the newly inducted council members will serve as role models and inspire their peers to strive for excellence in all their endeavours.

Heartwarming celebrations honours role of fathers

San Academy TAMBARAM

On June 13, 2025, San Academy Tambaram organised a delightful Father's Day celebration for kindergarten children, filled with joyous activities and heart-warming moments. The event aimed to honour and appreciate fathers, fostering a special bond between them and their little ones.

participated in fun-filled games such as treasure hunt, pin the moustache and dress up dad. The little ones also decorated take-home crafts, including "Dad is a Superhero" bookmarks and smiley cards, adding a personal touch to the celebration.

Families enjoyed taking memorable pictures at specially set-up photo booths, capturing the essence of the day. Children

The event was a resounding success, leaving both fathers and children with cherished memories.

Inspiring students to embrace wider reading culture

San Academy, Tambaram, recently celebrated P N Panicker Reading Week with a special author interaction session for classes VIII and IX. Renowned author Sivaraman, known for his best-selling book 'The world would not exist without it', which topped sales at this year's Chennai Book Fair, led an engaging session on "Reading for Devel-

opment". Students participated with great enthusiasm, interacting actively throughout. The session emphasized the need to read beyond textbooks to foster personal growth and critical thinking. The initiative successfully inspired students to embrace a wider reading culture, echoing P N Panicker's vision of a reading-led society.

San Academy TAMBARAM

Music, storytelling, touching depiction blend in cultural programme

San Academy, Tambaram, proudly hosted its 7th annual cultural day, celebrating creativity and spirit of students from nursery to class XII. The first show, "Toytastic," brought the stage alive with colourful and energetic performances by nursery to class III students, capturing the magic of childhood through kites, teddy bears, dolls, robots, race cars and musical

toys. The programme blended music, movement and storytelling, creating a truly enchanting atmosphere. The second show, "H2O," by class IV to XII, delivered a powerful message on water conservation, including a touching depiction of Wayanad's situation. The chief guests R Sujitha and music director-actor G. V. Prakash Kumar inspired the students.

San Academy, Tambaram, celebrated International Yoga Day on June 20, 2025 with great enthusiasm. JF&KG and SR&KG children, dressed in graceful white attire, began the session with simple breathing exercises led by teachers. Older students showcased yoga poses like Sukhasana, Parvatasana, Vajrasana, Paschimottanasana, and Trikonasana. Teachers further engaged the children by demonstrating fun

poses such as butterfly, tree pose, sun pose, and flamingo.

The event encouraged mindfulness, flexibility, and healthy living among young learners. It was a joyful morning filled with energy, balance, and harmony, inspiring children to embrace yoga as a daily wellness habit.

children to embrace yoga as a daily wellness habit.

Understanding dangers of plastic

On June 5, 2025, students from classes IX to XII of San Academy, Tambaram, came together to mark World Environment Day, with the theme "Say no to plastic pollution."

The assembly began with a compelling speech on the significance of environmental protection. This was followed by a collective pledge, where students vowed to reduce plastic usage and conserve nature. A powerful skit titled 'Plastic - not so fantastic', creatively depicted the dangers of plastic on our health, lifestyle, and environment.

The event served as a meaningful reminder of the students' responsibility in building a cleaner, greener future.

Young readers discover the joy of books

The Senior Kindergarten students of San Academy, Tambaram, enjoyed an exciting and educational field trip to the Anna Centenary Library. The visit was specially arranged to encourage children to develop an early love for reading. The Anna Centenary Library, one of Asia's largest, is a landmark in Chennai dedicated to promoting the joy of reading. The students were taken to the children's section of the library, where they eagerly browsed through a wide range of colourful picture books. The vibrant collection, designed to engage kindergarteners, sparked their curiosity and joy as they turned the pages of their favourite stories. A special highlight of the trip was the chance to meet well-known writer Vihiyen, author of the famous book Pencil. The author interacted warmly with the children, encouraging them to dream big and express their cre-

ativity through stories. Teachers accompanying the students noted that the trip helped in nurturing reading habits and boosting communication skills. The visit concluded with the children express-

ing their delight, carrying back not just the joy of the day but also the spark of curiosity that books can ignite. The school believes such experiences will lay the foundation for a lifelong love of reading.

Overall championship won at inter-school cultural fest

Students of classes VI to XI of San Academy proudly participated in an inter-school cultural fest organised by a reputed CBSE school and clinched the Overall Championship for their stellar performance across multiple events.

In 'tongue twisters', Visak Karthik won I prize, while in 'shutter stories', Sujay Survesh R bagged the II prize. Thanasi secured III prize in 'word wizard'. In the 'mock press conference', Dev Palaniyappan and Thajus R Varier earned I and II prize respectively. 'Adzap' was a major win with Gridhar, Mohammed Sibaan, and Mithran Mahendran taking I prize. Darshan shone in 'matinee review', Rohan in stand-up comedy, and the mime team of Sanjana, Kavipriya, Madhusri Nivedita, and Suchithra won II prize. Tamil events also saw victories. In 'speech contest', Isaac Pandian won III prize, in essay competi-

tion Dev Karthik won III prize. The school also won I prize in group song and in cappella. It is a proud moment for the school.

Joyful activities he

San Academy, Tambaram, celebrated Children's Day with great excitement on November 14, 2025. The campus was filled with laughter as kindergarten children enjoyed a variety of fun games such as musical chairs, balancing the ball, tug of war, crawling through tunnels and throwing balls into baskets. Every child participated with enthusiasm and energy.

The celebration became even more lively when the teachers joined in, playing an exciting round of tug of war, while the support staff took part in musical chairs, adding to the cheerful atmosphere. A special highlight of the day was a vibrant dance performance by the teachers, which the children enjoyed watching.

During the event, teachers also spoke to the children about the importance of Children's Day, explaining that it is celebrated to honour

the birthday of Pandit Jawaharlal Nehru, who loved and valued children deeply.

The day ended with happy smiles, joyful memories and a spirit of togetherness, truly a celebration to remember.

San Academy TAMBARAM

The spirit of devotion and festivity came alive at San Academy, Tambaram, as KG students celebrated Navaratri on September 26, 2025 with traditional fervour. Dressed in colourful ethnic attire, the young children participated in a variety of activities including dandiya and kolattam dances, music and craft work related to the festival. Teachers narrated the story of Rama and Ravana, emphasizing the triumph of good over evil, and explained the traditions of Navaratri, such as fasting, offerings and the significance of golu. Children also recited slogans and joyfully engaged in festivities, gaining valuable cultural knowledge while enjoying the celebration. The event not only showcased the cultural richness of India but also helped the children understand the deeper meaning behind the festival rituals. The Navaratri celebration at San Academy was a vibrant and memorable occasion that beautifully blended fun, learning and tradition.

Dedication and passi

The 7th annual sports meet at San Academy, Tambaram, was a vibrant spectacle of energy and teamwork. Themed Festival Fiesta for KG - class II and "Khelo India" for classes III to XII, the event emphasised fitness, fun, and national sports spirit. Chief guest Harishanker Narayanan, strategic performance analyst and guest of honour Thilak Selvam, renowned boxer, inspired students with their motivational words. The day unfolded with a grand parade, rhythmic drill displays, and thrilling track-and-field competitions, showcasing young talent.

School principal Aparna Arulanandan commended participants for their discipline and sportsmanship, reinforcing the academy's commitment to holistic development. The event concluded with prize distribution ceremony, medal ceremonies, leaving memories of camaraderie and pride.

San Academy TAMBARAM

San Academy, Tambaram, celebrated Christmas Day with great enthusiasm, spreading joy, music and the spirit of togetherness across the campus. The celebration highlighted the true essence of Christmas—love, sharing and care for one another. The school was beautifully decorated with stars, bells, streamers, cribs and an eco-friendly Christmas tree. The programme began with a brief reflection on Christmas, followed by a meaningful nativity skit enacted by students. Melodious carols, dances and short skits conveyed messages of kindness, peace and generosity. Teachers emphasized empathy and service, reminding students that Christmas is about sharing happiness. Santa Claus's surprise visit added cheer and excitement to the show.

ECHOES OF EXPRESSIONS

I am M. Anandi Kannan, mother of K. Tejithaa (Class 7A). I sincerely appreciate SAN Academy for nurturing my daughter's confidence and overall development. She has shown great improvement in stage performances and active participation in school activities. The constant support and encouragement from her class teacher and the school have contributed significantly to her holistic growth. I extend my heartfelt thanks to the school and teachers for their guidance and commitment.
— M. Anandi Kannan

I wanted to express my sincere appreciation for San Academy Tambaram's holistic approach to education. Activities like Project Day and Pot Lunch have significantly enhanced my son's self-confidence and social skills. These initiatives provide him with valuable opportunities to express himself, collaborate with peers, and step out of his comfort zone. I've noticed remarkable growth in his ability to communicate and present his ideas with confidence. Thank you for nurturing not just academic excellence but also well-rounded personality development.
-Parents of V.Ashwin Palanisamy V C

Myself Dr.Vinay Kumar F/o Dhyan S Vinay, joined San Academy Tambaram in 2019, and our family's journey with this incredible institution has been nothing short of transformative. From the very first day, we witnessed the school's unwavering commitment to holistic child development, blending academics with extracurricular excellence.

During the challenging COVID-19 period, the online sessions stood out as remarkably interactive. Teachers didn't just deliver lessons; they engaged every student with enthusiasm, using creative tools and real-time feedback to keep learning alive and fun, even from home.

Post-COVID, the school's adherence to safety protocols was exemplary. Clear instructions, rigorous hygiene measures, and a phased return to campus ensured our children's well-being, giving parents like me complete peace of mind.

What truly sets San Academy apart is its exceptional teaching faculty. Every teacher excels in their craft, fostering a love for learning. Class teachers go the extra mile, involving students in all activities—from group projects to cultural events—building confidence and teamwork.

As a former Parent-Teacher Coordinator, I experienced the school's responsiveness firsthand. Whenever I raised queries that benefited students, Principal Mam addressed them on the spot, directing immediate action. The primary and secondary coordinators were equally outstanding, patiently listening to parents' concerns and implementing changes promptly.

The annual day celebrations were a highlight, showcasing the children's talents with grandeur and joy. I must specially appreciate Project Day, where class teachers and coordinator Mams inspired every child to participate actively, turning learning into an exciting adventure.

My heartfelt thanks to the management, Principal Mam, and all teachers for their wonderful efforts. You've made Dhyan's school life—and those of countless others—truly memorable through stellar academics and vibrant extracurriculars. San Academy Tambaram isn't just a school; it's a nurturing family that shapes bright futures.

Regards,
Dr.Vinay
